

STRIPE HIV Partners

Purpose of this document: This is the list of STRIPE HIV training partners. Partners are institutions that have conducted STRIPE HIV training, currently or previously. STRIPE HIV is active in 20 African countries.

How to read this document

- Training Partner (marked with a star in the original): An institution that conducts STRIPE HIV training, currently or previously.
- AFREhealth: A partner that utilizes STRIPE HIV training for a cross-continental nursing leadership program. The institutions listed below AFREhealth are affiliates that participated in training programs they coordinated.
- Affiliate Institutions: Listed below each partner. These are academic, clinical, and government institutions that have provided trainees.

America First alignment note

Aligned with Pillars 1 and 2 of the America First Global Health Strategy, STRIPE HIV academic partners serve as vital, sustainable in-country partners for Ministries of Health, advancing national health system priorities and reducing reliance on external assistance. STRIPE HIV investments strengthen health workforce capacity, equip staff to track and use data for improved service delivery and surveillance, and develop the next generation of frontline healthcare leaders, building the durable, country-owned health infrastructure envisioned in the Strategy.

Botswana

Training Partner: University of Botswana
